CMS-HCC Risk Adjustment

2024 Provider Engagement Education Program

PEEP Sessions

The goal of these sessions is to enhance your knowledge of the principles of CMS-HCC risk adjustment model and the importance of accurate and complete documentation requirements for ICD-10-CM diagnosis coding. There will be discussions on CMS-HCC risk adjustment coding, documentation challenges, and official ICD-10- CM diagnosis coding guidelines. These PEEP sessions are highly recommended for physicians, other qualified health care professionals, and coding and billing professionals.

Goals

Participants who participate in these sessions will be able to:
- Gain a stronger understanding of the medical coding guidelines and regulations, including compliance and the impact of diagnosis coding on CMS-HCC risk-adjustment payment models
- Understand common conditions in the CMS-HCC risk adjustment model and how to properly document and code in ICD-10-CM
- Expand knowledge of how to document and assign accurately specific ICD-10-CM codes
- Develop a mindfulness to the auditing process for CMS- HCC risk adjustment models
- Identify and/or communicate documentation deficiencies to improve documentation for accurate CMS-HCC risk adjustment coding
